*Wessex Stone Fireplaces Are Proudly Crafted in England.*

These surrounds are hand carved from solid natural stone and all description, samples, photos etc. are offered in good faith as being representative of the final product. Natural Stone is subject to colour variations as is the inclusion of fossilised shell and veining to a greater or lesser degree. All Wessex Stone Fireplaces can be designed and produced to any requirement or size. Please ask your dealer for details of our technical support line which is offered to all potential clients. Wessex Stone Fireplaces adopts a policy of continual improvement and reserves the right to change design and details without notification. All designs and drawings featured are the property of Wessex Stone Fireplaces and are protected by international copyright and may not be reproduced without permission. The accuracy of colour of the fire surrounds shown in the brochure is limited by the printing process.

## INTRODUCTION

**Wessex Stone Fireplaces** have been hand crafting natural stone fire surrounds for over 21 years from our workshops that lie deep in the heart of the rural Gloucester countryside. From our dedicated site, English Heritage approved masons individually select the stone for its character, quality and colour.

Our masons then hand craft millions of years old natural limestone into beautiful and ornate fire surrounds, in a stone that holds a strong history in our Country's building heritage.

Each stone component is carefully and skilfully shaped by mallet and chisel in the time-honoured fashion that has remained largely unchanged for well over two thousand years. This results in a beautiful piece of workmanship with each surround being a unique piece for your home, being delivered with your own personal authentication certificate.

We are also proud that unlike some other manufacturers we continue to only use English Limestone. Not only does this help us ensure the quality of our British product, but also the environmental impact.

## BESPOKE SERVICES

Every home is slightly different and we reflect this with our surrounds. Much effort has been made to give you as much choice as possible straight from the brochure with our extensive range of fireplaces, all suitable for use with any type of insert fires, stoves, open fires, gas, electric or solid Fuel. However we know there will be instances where our sizes and styles just won't be for you. In these cases, we can provide a unique bespoke design service completely free of charge, one of the many benefits that Wessex Stone provide through their craftsmanship. This can incorporate a uniquely sized fire surround from our styles to fit your home perfectly. Your surround can be hand carved to adopt any particular theme to feature an intricate example of the carving mason's art.

Wessex Stone Fireplaces prides itself on its flexibility in being able to provide exactly what each client requires, a benefit by not only modifying existing designs to suit any need, but also by the capability to design and produce bespoke surrounds to a client's individual specification.

Please discuss your personal requirements with your dealer and we will then endeavour to satisfy your wishes for that extra special surround that is your vision.

## WELLS MASONRY SERVICES

Our skills and dedication can easily be seen with our parent company Wells Masonry Services, who specialise in the creation and restoration of fine stone architectural masonry, and is available to consult and advise upon this further area of interest, should you require it.

Our mason's experience and patience has resulted in us to be chosen to work on such projects as the stonework to Queen Mother's Commemorative Gates in Hyde Park; Extensive restoration at Balliol College in Oxford; Marlborough College and Arched doorways at the palace of Westminster. We are proud that Wells' masons are among the finest in the country (arguably the best) and are time served in this very demanding field.

# FIREPLACE OPTIONS

*To create a truly spectacular surround, personalised for your home, ask your retailer to request a price for any of the following:*

## HEARTH

The floor of the fireplace that extends into the room.

## LININGS

The wall linings of the inner chamber which can give your fire a truly wonderful finish.

## INNER HEARTH

A slab of stone to sit inside the chamber to sit your stove, gas or electric fire on.

## BACK PANEL

This is the panel that fits in your surround to create the correct opening size for your fire and flue.

## CHAMFER

The edge of the stone worked to a 45-degree angle.
