CAST IRON STOVES & FIREPLACES

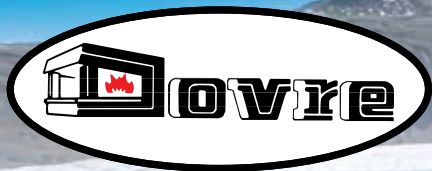

Dovre 425 multi-fuel stove in traditional Matt Black

Cast Iron Performance

Dovre takes its company name from a range of Norwegian mountains, and has more than 60 years' experience in manufacturing stoves and fireplaces for the harshest of Arctic winters.

The Dovre Range...

Traditional Wood & Multi-fuel Stoves..... 06 - 23

A comprehensive collection of classically designed stoves, incorporating the unmistakable atmosphere of a real log or smokeless fuelled fire. From the compact 250 to the grander 760CB, that true traditional ambiance can be perfectly attained in rooms of all sizes.

Sense Contemporary Wood Stoves.....24 - 27

The latest addition to the Dovre range, the Sense stoves feature a highly distinctive and ultra-slim firebox that will instantly add impact and style to your home.

Vintage Contemporary Wood Stoves.....28 - 33

For those with a more contemporary taste, the eye-catching Vintage range with distinctive retro styling, brings woodburning stoves right into the heart of modern living.

Astroline Contemporary Wood & Multi-fuel Stoves 34 - 47

With superb modern styling, the Astroline series of woodburning & multi-fuel stoves takes the design of cast iron stoves into the 21st Century. The high elevations make a bold style statement but they also permit extra heating capacity.

Contemporary Wood & Multi-fuel Cassette Fireplaces.....48 - 55

Designed to create a striking centrepiece at the very heart of your home, Dovre cassette fireplaces impress with their high levels of heating efficiency and clean geometric lines. With the double-sided cassettes, your fire can even be enjoyed from two rooms at once!

Traditional Wood & Multi-fuel Insert & Canopied Fireplaces.....56 - 65

At home in both traditional and contemporary interiors, this collection of fireplaces can be built either into a fireplace or combined with optional canopies to create a stunning centrepiece for larger fireplace openings and inglenooks.

Traditional Gas Stoves 66 - 69

With their traditional styling, Dovre Gas stoves combine the classic atmosphere of a real log or coal stove with the added convenience and ease of a modern gas fire.

Traditional Electric Stoves 70 - 73

There are two models in the range, incorporating our unique VeriFlame™ technology, and boasting a choice of glow and flame effects. With individually hand-painted logs and full remote control, a Dovre Electric stove will always be a pleasure to come home to.

The Dovre Difference...

Durable and Reliable

Cast iron has many advantages – durability, better heat retention and longevity, as well as the ability to be crafted into a huge variety of shapes and textures, giving aesthetic beauty and immediate appeal whether your interior style is traditional or contemporary.

Over the decades, Dovre's product range has been continuously developed and refined. Today, its woodburning and multi-fuel stoves offer advanced cleanburn technology for improved combustion efficiency and care for the environment. Its airwash systems help keep the door glass clean, whilst there are also many models fuelled with the convenience of gas or electricity.

Whatever your choice - wood, multi-fuel, gas or electric - your Dovre stove or fireplace will be beautifully reliable and built to the uncompromising standards you would expect from our Scandinavian heritage.

Wood and Multi-fuel Stoves and Fireplaces

Dovre stoves and fires are designed to burn wood and smokeless fuels and have been independently tested to exacting standards for safety, heating efficiency and emissions. The 250, 225, 525, 500, 700, Vintage and Sense models have also been approved for the burning of wood in Smoke Control areas*.

Wood – Wood is the better fuel in environmental terms being carbon neutral, as the amount of carbon dioxide released into the atmosphere is approximately the same as that absorbed by the tree during growth. It is also a renewable resource, particularly when derived from plantations and cultivated woodland. For optimum results, we recommend logs should be seasoned for 2 years or more to achieve a moisture content below 20%†. This will not only give up to twice the output of freshly felled timber but help avoid a build up of tar in your flue. Furthermore, if you can obtain hardwood logs this is better still, as they will have around twice the calorific value of softwoods, of equivalent weight.

Solid fuels – anthracite and manufactured smokeless fuels can be burnt on multi-fuel models which feature a fixed or riddling grate. Please note, however, that bituminous coal or petroleum based fuels must never be used on your stove.

Gas Stoves

All Dovre gas stoves are available with natural gas or LPG and, depending on model, feature a highly realistic coal or log effect fire. These highly efficient stoves are available as manual operation and have the option to upgrade to either a standard remote, allowing heat regulation once the pilot light has been lit manually, or a programmable remote with additional thermostatic and timer controls.

Electric Stoves

A Dovre electric stove can be as easy to install as plugging in and switching on! All models feature our unique VeriFlame™ technology with low energy LED illumination and hand painted fuel bed. With the heater discreetly located underneath, plus a remote control allowing you to adjust the heat between off, 1kW and 2kW in addition to the VeriFlame™ effects which can run without any heat at all.

Warranty Information

Your Dovre retailer will provide you with a Five Year Warranty for your new stove castings and a Two Year Warranty on steel parts and gas and electric 'engines' used in stoves and fires. Full details are on our website at www.dovre.co.uk

*250, 225, 525, Vintage & Sense stoves are approved when fitted with a Smoke Control Kit.

†All efficiencies quoted in this brochure are for seasoned wood with a moisture content of less than 20%

Expert Retailer Network

We take great care to ensure that our stoves and fireplaces are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will be happy to show you a selection of models locally in their showrooms, often fully operational. These independent retailers will discuss your individual requirements both technical (such as sizing the heat output to your room and advising on your flue type) and design; and ensure that you select the most appropriate product for your home. They will also be able

to advise on or assist with the installation process as well as help provide any after-sales support and servicing of your appliance that you may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from nationwide online sales and we would strongly recommend that you consider this when undertaking your research and making a purchasing the product only decision. Further, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

The Dovre 250 multi-fuel is designed to suit a huge range of applications from a cottage kitchen to a modern town-house living room, especially as it is approved for smoke control areas. It has a large glass door panel and ornately cast side panels both adding to the visual appeal. Manufactured from only premium grade cast iron, the 250 is at home whether burning wood (logs up to 30cm long may be used) or a variety of solid fuels, and is equipped with a sophisticated airwash system to keep the door glass cleaner. Matt black woodburning and woodburning/smokeless fuel versions with cleanburn for improved heating efficiency are also available. Shorter legs are an option on the 250CBW model.

DV-TAI-AC* Matt black anthracite coal stove with gravity fed hopper and airwash system

FINISHES

Traditional
Matt Black

Tai anthracite coal stoves feature a top feeding hopper for easy loading of fuel

A cast iron stove with a difference, the Dovre Tai is a powerful heating appliance with a thermostatically controlled heat output.

Also, the Tai will continue to radiate heat, after burning anthracite coal, long after the fire has died down due to the heat retention qualities of cast iron.

The Tai when burning anthracite coal also offers good burn durations, giving the option of an overnight burn if required.

All these, combine to make the Tai an efficient and attractive source of warmth for your home.

This versatile stove can suit both traditional and contemporary interiors with its elegant design and curving details, and is ideal for those who desire something a little different, to create an attractive feature for your living space.

- All cast iron construction
- Woodburning or multi-fuel
- Dedicated anthracite coal burning stove* with gravity fed hopper for easy loading

1CB

Astroline Wood Stove

With superb modern styling, the Astroline 1CB takes the design of cast iron stoves into the 21st Century. The high elevations not only represent a style statement but they also permit extra heating capacity, as logs up to 37.5cm in length can be positioned in a 'wigwam' shape and provide up to 10kW of warmth; ideal for larger, open plan living spaces.

Further, the Astroline 1CB features all of Dovre's latest cleanburn technology, including a secondary combustion system to reduce soot emissions and to improve fuel efficiency, whilst a powerful airwash system helps to keep the huge ceramic glass panel clean. Together, they create exceptional flames and a wonderful view of the fire.

- All cast iron construction
- Woodburner
- Cleanburn and Airwash system
- Nominal heat output: 9kW
- Heat output range: 3 - 11kW
- High efficiency: up to 78%

Astroline 2CB with pedestal. Shown with Stovax Ironworks loop toolset (533mm) & medium contemporary log holder

PRODUCT CODES

DV-ASTRO2/P

Anthracite coloured woodburner with pedestal base, cleanburn, airwash and outside combustion air connection

DV-ASTRO2/WB

Anthracite coloured woodburner with wood store base, cleanburn, airwash and outside combustion air connection

FINISHES

Anthracite

Retaining the same firebox characteristics, heat output and high efficiency of the original 2CB, the Pedestal and Wood Store variants offer two more styling options to attract the eye and make a bigger impact in the room. Whether for taller inglenooks or to stand proudly in the centre of a wall, the stylish 2CB stoves have the versatility to match and punctuate your own contemporary tastes.

For draught reduction, both models have a built in outside air connection which, if required, can be used to draw combustion air directly into the appliance from outside rather than from the room.

- All cast iron construction
- Woodburner
- Cleanburn and Airwash systems
- Outside combustion air facility
- Nominal heat output: 7kW
- Heat output range: 2.3 - 9kW
- High efficiency: up to 78%
- Top or rear flue exit
- Flue diameter: 150mm
- Maximum log length: 33cm
- Weight: 158kg

3CB

Astroline Wood & Multi-fuel Stoves

With sleek and contemporary styling, Dovre's new Astroline 3 not only offers you an exceptional view of the fire but also a choice of two distinctive variants as well as either woodburning or multi-fuel versions of each. The state-of-the-art cleanburn combustion system provides stunning flames within the firebox and these can be seen from more than 180° thanks to the angled glass side panels and the large main window. Combustion and efficiency is also aided by an outside air connection which can reduce draughts within your room.

Choose from the Astroline 3CB with a pedestal or, alternatively, the design with a 'wood store' base.

- All cast iron construction
- Woodburning or multi-fuel versions
- Cleanburn and Airwash system
- Outside combustion air facility
- Nominal heat output: 8kW
- Heat output range: 2.5 - 10kW
- High efficiency: up to 75%
- Top or rear flue exit
- Flue diameter: 150mm
- Maximum log length: 33cm
- Weight: 158 - 171kg

Similar in looks to the Astroline 3CB, this model is also available in either woodburning or multi-fuel versions and with a choice of pedestal or wood store bases.

Featuring an extensive front window and glass side panels, you are able to enjoy to the full the exceptional swirling flames produced by Dovre's very latest cleanburn system. An external combustion air facility also helps to reduce draughts in the room as well as improve heating efficiency – and with up to 10kW of warmth that's a very cosy thought for any winter's night!

- All cast iron construction
- Woodburning or multi-fuel versions
- Cleanburn and Airwash systems
- Outside combustion air facility
- Nominal heat output: 8kW
- Heat output range: 2.5 - 10kW
- High efficiency: up to 75%

Zen 100

Woodburning Cassette

Compact yet powerful, this stunning woodburning cassette pairs cutting-edge technology with an attractive design. The Zen 100 allows you to enjoy the rolling flames to maximum effect, as the recessed combustion chamber conceals the fuel bed, allowing a fuller flame visual. The latest Cleanburn and Airwash technology also provides a clean and clear window.

With an efficiency of 80% and a heat output of 5kW, the Zen 100 is ideal for well-insulated homes, yet any living space can benefit from the beauty of this innovative cassette fire.

The Zen 100 recessed combustion chamber ensures beautiful flame views

Zen 102

Double Sided Woodburning Cassette

Zen 102 cassette fire

This outstanding, double-sided cassette combines big impact with compact dimensions. The firebox size and 5kW heat output is ideal for linking two smaller living spaces ensuring a fabulous and full flame picture from both sides of the fire. The stunning Zen 102 is made yet more attractive by its recessed combustion chamber below the viewing window (see diagram on page 49).

The shallow firebox depth allows for more flexible installation options than standard duplex fires, making it perfect for creating a striking focal point in a variety of rooms, and with easy opening doors on both sides and a simple single air control, the Zen 102 allows for effortless operation.

Note: a standard 13amp domestic electricity supply is also required for this appliance to power the built-in electric fan.

This superb cassette is a dedicated double-sided design that is ideal for new build and major renovation projects. It offers both excellent heating capacity (complete with thermostat and integral fan unit for quicker warming of the room) and great views of the fire to adjacent rooms using a central flue. The 2510 can burn wood or smokeless fuels and produces up to 9kW of heat.

- All cast iron construction
- Woodburner and multi-fuel option
- Fan-assisted double-sided cassette with thermostatic control
- Nominal heat output: 9kW
- Heat output range: 3.33 - 12kW
- High efficiency: up to 78%
- Flue diameter: 150mm

Note: a standard 13amp domestic electricity supply is also required for this appliance to power the built-in electric fan.

This large bow-fronted cassette features a sophisticated airwash system to ensure you enjoy a superbly panoramic view of the fire. Although a dedicated woodburner, the multi-fuel basket option also allows you to burn smokeless fuels should you wish. Whichever your preference, the 2520 will heat your room with a gentle stream of warm convected air or, by using the integral electric fans, a powerful flow of thermostatically-controlled heat.

- All cast iron construction
- Woodburner and multi-fuel option
- Cleanburn and Airwash systems
- Fan-assisted convection system with thermostatic control
- Nominal heat output: 10kW
- Heat output range: 3.33 - 12kW
- High efficiency: up to 80%

Dovre 280 Gas balanced flue version with log-effect fire.

280

Gas Stoves

The 280 Gas blends Dovre's pedigree in casting with the latest gas flame technology. Choose from either realistic coal or log-effect fuel effects, the latter sporting a new glowing ember bed feature for the ultimate real fire ambiance. Both fuel effects are available in conventional flue versions, whilst the log effect is also available in a balanced flue model.

The 280 comes with manual control or, for total ease and convenience, upgrade to one of two command remote controls.

- All cast iron construction
- Balanced and Conventional flue with realistic log-effect fire
- Conventional flue models with coal-effect
- Colour matched enamel flue pipe available
- Optional remote controls
- High Efficiency: up to 81%
- Max. heat output: 3.6kW (CF)/3.5kW (BF)
- Ignition system requires no electricity supply
- Top or rear flue exit: 125mm (CF)/152mm (BF)
- LPG and Natural Gas versions available
- Automatic safety shutdown in the event of pilot light failure or flue blockage
- Weight: 50kg (CF)/54.4kg (BF)
- Electric version available, see pages 70 - 71

280

Electric Stoves

If you do not have a chimney or want to locate a stove in a space where it would be difficult to install a flue then the electric version of the 280 could be the answer. Once plugged in to a normal 13amp socket, you simply use the remote control to turn it on or off, adjust the heat between the 1kW or 2kW settings or to select one of three flame brightness levels using the unique VeriFlame™ technology. The additional option of a subtle blue flame effect on the highest level makes the stove's 'log' fire one of the most authentic available. It truly is real fire ambience at the press of a button!

Dovre 280 Electric in traditional Matt Black

- All cast iron construction
- Exceptionally realistic log-effect with hand painted fuel bed and logs
- Choose from three brightness levels using unique VeriFlame™ technology
- Flame effect can be operated with or without heat output
- High Efficiency: 99%
- Discreetly concealed fan heater with 1kW and 2kW settings
- Requires no flue, hearth or chimney
- Plugs into standard 13amp socket
- Safe to use in most locations around the home or conservatory
- Can be moved from room to room
- Weight: 50kg
- Gas version also available, see pages 66 - 67

Accessories & Stove Care

Care of your Stove or Fireplace

To help you get the best performance from your stove or fireplace and keep it in good condition, inside and out, Stovax (Dovre's distributor in the UK and Republic of Ireland) offers a wide range of cleaning and maintenance products. Stovax also supplies a wide variety of fireplace accessories. Your Dovre retailer will be able to give you full details or you may view the complete range at www.stovax.com.

Fireplace, Stove and Hearth Accessories

Included in the brochure is an outstanding selection of fireplace and stove tools. Expertly crafted with a variety of styling options and available in wrought iron, black, brass and chrome finishes, this exquisite range of accessories comprises individual tools alongside complete companion sets. There are also a number of classically designed pails, scuttles and holders for your coals, logs and kindling – functional and stylish accompaniments to your Dovre stove or fireplace.

Fire Screens and HearthGate

Stovax offers a wide range of fire screens that combine looks with practicality. Whether your Dovre appliance is traditional or contemporary in styling, you can find a fire screen that not only complements your stove or fire, but also helps keep you safe. Available in an array of designs and materials, including glass, black steel and brass plated, these fire screens are the perfect companion for your Dovre fire or stove.

Contemporary Fire Tools and Steel Log Holders

For more modern interiors, Stovax has developed a range of contemporary fire tools and log holders. That are both sturdy and attractive. These minimalist accessories offer a superb pairing to Dovre's range of contemporary stoves such as the Vintage, Sense and Astroline stoves. See pages 27, 30, 38 and 42 for contemporary tools and log holders in situ.

Sense and Astroline Heat Shields

Dovre also offer a range of highly effective Heat Shields for the Astroline 3CB & 4CB and Sense stoves. These fantastic additions allow a reduction in the distance to combustible materials at the rear and sides of the stoves as shown below.

The Dovre Heat Shields not only maximise the available space within the room, but they also enable you to accommodate a wider range of materials in your interior design. For further information please speak to your local Dovre retailer

Distances to combustible materials when fitted with Dovre Heat Shield:

STOVE	DISTANCE FROM REAR (MM)	DISTANCE FROM SIDES (MM)
Astroline 3CB	100	300
Astroline 4CB	100	400
Sense 100 & 103	100	500
Sense 200 & 203	100	500

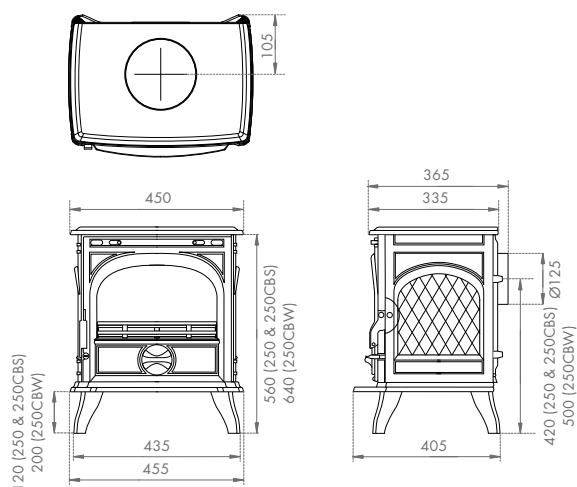

Traditional and Contemporary Mantels

Stovax also offer a wide range of mantelpieces forming the perfect complement to many of the Dovre stoves and fires shown in this brochure. Choose from a wide selection of wood, cast iron or natural stone mantels in a choice of both historic and contemporary designs, each handcrafted to the highest quality finish. To view the extensive range on offer, please visit www.stovax.com to view and download the Stovax Classic Fireplaces brochure.

P72/73 | 425 Electric Stoves

Further Information

Warranty Information

Your Dovre retailer will provide you with a Five Year Warranty for your new stove castings and a Two Year Warranty on steel parts and gas and electric 'engines' used in stoves and fires. The continuation of the warranty is dependant on your appliance being serviced by an appropriately qualified person 12 months after installation and annually thereafter. Please note, these warranties exclude certain consumable and naturally wearing parts such as grates, baffles, firebricks and glass. Full details are on our website at www.dovre.co.uk

Product Improvement and Safety Information

Dovre reserves the right to amend any specifications herein or to make any product design changes.

Please note that all parts of these stoves and fires, particularly the glass panel in the door, become extremely hot during operation and can result in serious injury and burns if touched. It is therefore recommended that a fireguard complying with BS 8423:2002 is used in the presence of young children, the elderly or infirm.

Furthermore, by law all installations also require a Carbon Monoxide Monitor be supplied and fitted.

Photography and Installation

Please note that, due to studio lighting and the limitations of the printing process, colour reproduction of enamel finishes may vary from actual product. Please consult your Dovre retailer for more accurate colours.

All of the flame pictures shown in this brochure are taken from real fires. Please note however that flame pictures will vary depending on the exact fuel used, flue conditions and surrounding geographical features. Some of the photography in this brochure may not appear to comply with the requirements of the latest Building Regulations and you should always check your proposed installation arrangement with your HETAS trained installer before proceeding. Certain settings in this brochure are dependant on the use of heat shields to reduce the required separation from combustible material.

Some of the room sets in this brochure have been created for aesthetic purposes. When designing your own installation, please observe the minimum distance to combustible materials as stated in the installation instructions.

The 'Nominal' heat output is to be used for calculating the ventilation provision as required by ADJ Building Regulations and for calculating its suitability for heating the size of room it will be fitted into. The heat output 'Range' is to be used as a guide only as the maximum and minimum performance will depend on local conditions such as flue pull, fuel quality and the way in which the product is used.

Please note: The operation and appearance of gas appliances depends on variable factors such as the gas pressure supplied.

Flue Pipe and Chimney Systems

For the fully colour co-ordinated installation of your stove, and optimum performance, we offer high quality enamel coloured flue pipe. However, please note that due to the different production processes we cannot guarantee a perfect match between pipe and stove. The flue pipe diameters required for each model are demonstrated on the product pages.

* Supplied from Stovax. Stovax Ivory enamel flue pipe is a colour match to Dovre's Ivory White enamel traditional stove and Vintage White enamel finish. Please note this is not a match to the Dovre Sense Pure White enamel finish.

Professional XQ™ Chimney Systems

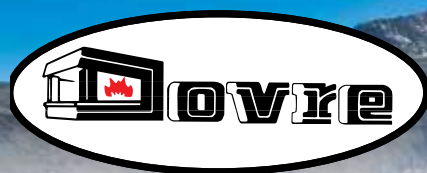

Stovax (Dovre's distributor in the UK and Republic of Ireland) also offers a comprehensive range of stove and fireplace chimney systems, the Stovax Professional XQ™ collection. Crafted from 304L grade stainless steel for a durable outer finish, the fully sealed components offer water tight protection for the insulation within.

With innovative decorative options, the ability to specify a colour for your system and with a host of technical advancements such as their Twist-Lock system, the Professional XQ™ range provides an attractive, versatile and reliable solution for your flue system. Furthermore, the Professional XQ™ range carries a 10 year conditional warranty offering complete peace of mind.

For further information or to request a brochure, simply contact your local retailer or visit www.stovax.com/chimneysystems.
